REGION I  
OFFICE OF REGIONAL COUNSEL

Dear Mr. Walsh-Rogalski:

In response to your request of October 5, with regard to information in Carroll Products' possession relating to Sun Chemical's activities at the Wood River Junction site, please note that Carroll Products has several cartons of production notebooks left at the site by Sun. A Carroll Products chemist has gone through a sample of these notebooks, but not all of them, and has compiled a list of chemicals used at the site. These detailed records are available for your examination. I have enclosed the list of chemicals we prepared from them.

Please let me know if you have any questions on this information.

Very truly yours,

Lawrence W. Bierlein
